

Oct. 5, 1938 22
Survey for John Ziegler
Lot 48, Edgewater Terrace
Lot 47 was surveyed for Herman
Roltsek Aug. 18, 1938, next lot
North of 48 and it joins this
lot with a wall but wall is
about 2' over on 47.
35 joins 44 on west, so that
these two previous surveys establish
Ziegler's (lot 48) lines North and West
with iron stakes at S.W. N.W. & N.E.
Cor's of 48. These 3 stakes were
found O.K. as previously set.
Lined in and measured the
East line of ~~47~~ 48. Ziegler lot
and measured S line of 48
Ziegler lot, 100' and set iron
stake 2' S. of end of Ziegler's
retaining front wall and 1' E. of
Cor. stk. Ziegler's street retaining
wall is 1 ft. in street. On account
of stone we set S.E. Cor. stk 1 ft out
or in line with back of retaining
wall. Wall at N is 2' over in 47
and wall at East is 1' in road.
Appeared satisfactory to all
Parties. None talked of making
any change
