April 1, 1921

Survey of line between Henry Mitchell and Tony

SURVEYOR'S CERTIFICATE.

This is to certify that by request of Henry Mitchell and Antonio Holtzweimer we have made a careful survey of the line between said Holtzweimer's lot and the lots owned by Jacob Mich, and also by Phillip Mitchell to the west of Holtzweimer's lot. Said line purports to be the line between Lot 46 on the east and lots 45 & 47 on the west, Per- Jacob's ad. to Geneva Village.

By a careful previous survey and a thorough search of the records we find that there is an error in length of the north line of Lot 46 as shown on original plat, viz 22 ft. (The dimensions of lots 45 & 47 are not shown on original plat.)

As the property has been deeded from original owner down the N. line of lot 46 is shown to be and measures only 20 ft. or 21 ft. to the walk on east side of Villiers St. This walk approaches the property line as it extends south.

We measured 125 ft. west from the west line of Jacob Mich's lot as set by previous survey, measuring from the N.W. and S.W. corners of Balch Lot and with transit run line of over these two points and extended it to N. line of north St. for the line to be surveyed. Iron stakes were set at both ends of this line and for Phillip Mitchell's S.E. Cor. at the midpoint of this line as shown in his deed. Said midpoint is 125 ft. from each end of said line.

J.G. Woods, City Engineer.

Beattie Palmer, Ass't.

to a point directly north of the point of beginning.

Thence North to place of beginning.

By previous survey and search of records it is evident that the length of the N. line of lot 46 as given in original plat and surveyor's certificate attached
