

SURVEYOR'S CERTIFICATE.

This is to certify that by request of Maurice Reed we have surveyed the lot owned by Mrs. Maurice Reed and the one owned by Chas Lawrie in the south part of Block Five, Lake Geneva, Wis.

The lot owned by Mrs. Reed is described as follows; Begin at the S.E. Cor. of said Block Five; thence North in East line of said Block 143 ft. thence West 186 ft.; thence South 143 ft. to South line of Block; thence East in the South line of Block Five 186 ft. to place of beginning.

Chas Lawrie's lot as recorded is as follows; Begin in East line of Block Five 143 ft. North of the S.E. Cor. of said Block; thence West 246 ft.; thence North 80 ft.; thence East 246 ft. to the East line of Block Five; thence South in said East line 80 ft. to place of beginning.

The North line of Dodge St. is 530 ft. South of the North line of Section 36 according to the original plat of Geneva Village and the present location as staked accords with the above.

With transit we traced the North line of Dodge St. and set iron stakes for the South line of Mrs. Reed's lot as follows; The S.E. stake is 2.05 ft. West of the inner line of Madison St. sidewalk and 1.15 North of the line of Dodge St. walk. The S.W. Cor. stake is 186 ft. West of the S.E. Stake and 1.35 ft. North of the walk; the N.E. stake is 143 ft. North of the S.E. stake and 2.05 ft. West of the walk, the N.W. Cor. stake is 186 ft. West of N.E. Stake and 143' North of S.W. stake and is in the fence line. Iron stakes are set at the four points.

Note: the South line of this Block is correct according to original plat that is as to location North and South but the South line of this Block is 377 ft. between walks and the original South line was only 360 ft. the walk is Ten ft. out on Madison St. and the West walk is Seven ft. out on Warren St. It has evidently been conveyed accordingly and it is impractical to change it now and this survey is upon that basis. To change it would upset all conditions.

Chas Lawrie's lot is surveyed from the North line of Dodge St. and is 80 ft. North and South and 246 ft. East and West.

Iron stakes are set at all four corners. The East line is 2.05 ft. West of the walk and West line is at the East alley line. Stake at N.W. Cor. is at mid-post of gate. Lot 80 ft. by 246 ft.

April 13, 1921.

J. G. Skeels, City Engineer
Bessie M. Palmer Ass't.
