

conveyed
for the purpose of delivering fuel
located South of the conveyed premises, or the
ashes and rubbish out of the basement, and not otherwise.

The following written on a letter from
the Natl Farm Loan An'n, to H. B. Dickerson

Rufus Geneva Wix, 10/14/28

The above has been submitted to the writer, who surveyed the land in
question. I have carefully reviewed the description and pronounce it
CORRECT according to U.S. Gov't lines.
The MON. in the description is as stated at the intersection of the
E. 1/8 line and the South line of Sect. 11, T. 1 N. R. 17 E. Town of LINN
WIS. The East and the West lines are further definitely marked by
iron stakes set at the distances indicated. Everything is so
definitely marked that a school boy could follow it.
I know of no more correct description."

H. B. Dickerson, Wix, Reg'd Prop
