Mrs. Katherine Stokes,
Whitewater, Wis. 204, Church Street,
White-water, Wis.,

Dear Mrs. Stokes on our way home yesterday we drove over to Pell Lake Sundivision to look at your lots and readily loccated them as follows; They all front on West Post Road are 50ft by 100ft each making the entire frontage 200 feet on West Post Road and 100 ft. on each of Hemlock and U.S. 12 roads and making the entire parcel 100 ft. by 200 ft.

As to stakes we found two iron, one set by ourselves several years ago on ~~111101~~ Hemlock Road and and one partially set at S.W. con of parcel by somebody.

We found one wooden stake set at N. & E. Cor. May or may not be correct.

As we located the lots; the parcel consists of lots Numbers 131 to 130 Inc. in Block 3, in section 3 of Section 3, in PELL LAKE SUBDIVISION PELL LAKE, TWP. BLOOMFIELD, ALCO TH COUNTY, STATE OF WIS. CONSID

We will make the survey, set iron and wood stakes at the ~~4~~ FOUR corners of the entire tract, and give you a plat of the survey showing boundary lines and distances and location of stakes and a certificate of our survey as soon as weather will permit for FIVE DOLLARS for the entire work as outlined. If the above terms are satisfactory. We met a lady living just across from your lots and she said we located the lots correctly.

Please reply as soon as convenient.

Yours very truly,

J.C. Skeels,
